

Anglo/Brazilian  
Northern Mato Grosso Expedition 1967/69

**FLORA OF MATO GROSSO**

No. R. 35

Securidaca dwersifolia (L.) Blake

1 km. South of Xavantina (52°20'W - 14°44'S)

Edge of man-made clearing in dense  
cerrado formation.

Climber with quite heavy woody stems,  
clambering on the cerrado trees. The abundant  
mauve flowers make it very conspicuous.

Date: 4.7.1967

Coll.: J.A. RATTER

Det.: TDP.
