

**FLORA OF BRAZIL**  
**State of Tocantins**

**No. R7877**

*Licania*

18km from Porto Nacional on the road to Palmas,  
10°31'S 48°22'W, alt. 390m.

In cerradão ciliar (gallery cerradão) along the bottom of  
a narrow valley which must be very damp during the  
rainy season.

Very wide-crowned bushy tree, 6m tall, much branched  
from near base - thickest trunk 15cm dbh. Bark pale  
grey, much of it is smooth but some areas detaching in  
small angular flakes.

2 xi 1997
