

FLORA OF BRAZIL

State of Minas Gerais

No. R. 8006

Machaerium cf. leucopterum Vog.

Vale de Peruaçu, close to Fabião on the highway BR135 between Januária and Manga, 15°08'S 44°15'W, alt. 550m.

Deciduous forest, almost leafless at this time of year.

Tree, 7m tall, 12cm dbh, with smooth greyish bark patterned by faint transverse lenticellular lines. Seems to be evergreen.

Date: 21 vii 1998

Coll.: J.A. Ratter, S. Bridgewater & J. Batista dos Santos.

Good match with Mori et al. 1975
from Caatinga arbórea, 5m tree, Maracás,
Bahia.
