

FLORA OF BRAZIL

Ceg = Min

State of Mato Grosso

No. R. 8081V

*Stryphnodendron coriaceum* Benth.

Vernacular name: Barbatimão

Município de Riberão Cascalheira, Fazenda Santa Marta, 18km N of Riberão Cascalheira on the BR158, 12°49'S 51°46'W.

In dense cerrado on sandy soil.

Small young tree, 1.5m tall, 5cm dbh, with straw-coloured bark deeply fissured into a vertically elongated network (rather like that of *Robinia pseudacacia*). Leaves to 80cm long. Rare, only three specimens growing close together seen in the whole area.

Date: 18 viii 1998

Coll: J.A. Ratter, S. Bridgewater, J. Fonsêca Filho & Edson de Lima. (C, K, URB)
